

Copy of Letter from AkzoNobel:

RE: Masava Kemi – Evaluation for use with International Paint Tank Coatings

**To whom it may concern**

Following your recent request to evaluate Masava Kemi cleaner for use with International Paint Tank Coatings, please find confirmation as below.

The Masava Kemi cleaner was evaluated based on testing conducted by L&I Maritime. Within L&I evaluations, Masava Kemi's recommendations in relation to cleaner use (concentration / duration / temperature) have also been taken into consideration (unless otherwise stated below). Should any changes be made to either composition or use level recommendations for this cleaner, a further review by International Paint is recommended.

The evaluations conducted by L&I are only in respect to the potential effect of the cleaner on the cargo tank coating chemical resistance. The efficacy of these cleaners is not considered within the cleaner evaluations.

Cleaner	International Paint Tank Coating		
	Interline 704	Interline 994	Interline 9001
Masava Tank Cleaner Solid	✓	✓	✓

Please use up to concentration evaluated by L&I 0.125% and up to maximum temperature of 75°C.

✓ = Cleaner evaluated for use  
 X = Cleaner not suitable for use  
 NT= Not evaluated for use.

Kind Regards  
 Kate Fisher
