

Copy of approval information from IMO.

CleanForCargo Masava Tank Cleaner Solid is now IMO Approved, and the product will be added to the next official list of approved products - being published in the end of 2023.

4.5 The subgroup reported that the composition and documentation for seven cleaning additives submitted met the criteria set out in MEPC.1/Circ.590. The other product was rejected for containing more than 10% of a MARPOL Annex I product and thus is considered Pollution Category X. The list of approved cleaning additives meeting the requirement criteria is set out in table 1 of annex 3. The list of cleaning additives for which a change of component in cleaning additives already evaluated and found to meet the requirements of regulation 13.5.2 of MARPOL Annex II is set out in table 2 of annex 3.
